

## Church Center Groups

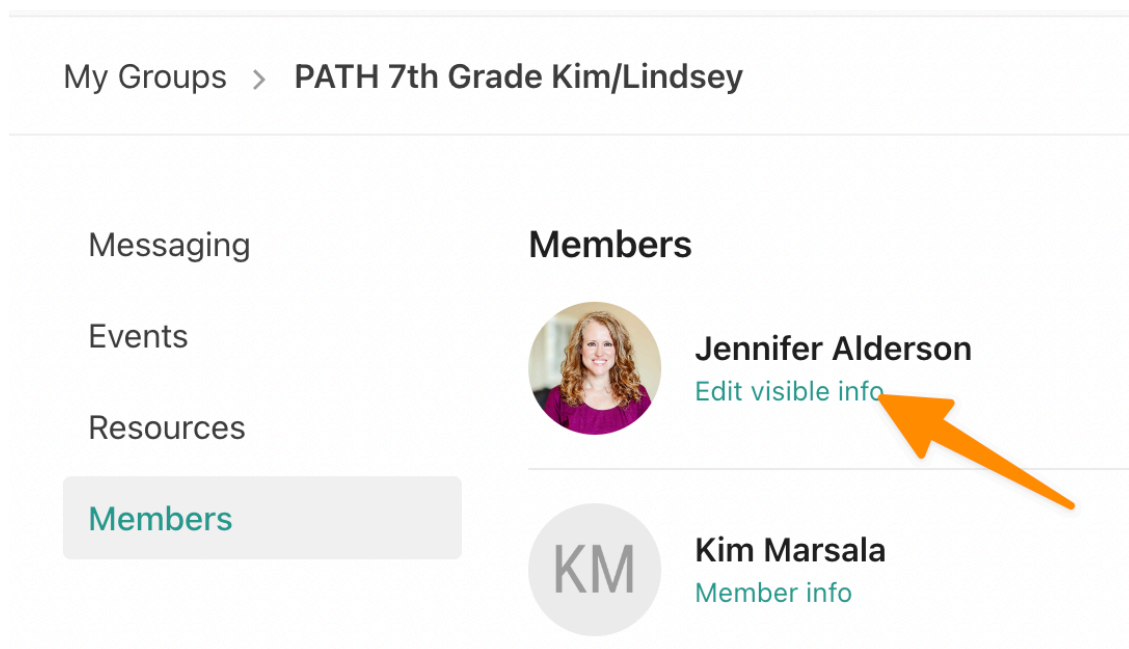

Church Center only sees Leaders and members. By default, members can only see the first and last names of other members. Leaders, by default, can see all members' information.

## Church Center does not recognize households.

Each individual member of a household must “edit visible info” to share their information. Spouses and parents are not allowed to share this information on their behalf.

## Sharing Information

If a member wants to share their information with that group, they would go to the Members tab and select *Edit visible info*.

Select the information you would like to be available for other group members, and check *Apply to all groups* if you want to share this same information for all your groups.

### Edit your visible information

Select the information you would like to be visible to the other members of this group. (Groups uses your primary contact information. [Edit your profile](#) to make changes.)

☒  **Jennifer Alderson**  
Your name will be visible for Group Messaging

☒ Include profile photo

☒ j4alderson@gmail.com

☒ (847) 323-9343

☐ Apply to all groups

**Save changes**

So, as Group “Leaders”, you’ll need to encourage your parents AND students to not only download the Church Center App, but also “Edit Visible Info” to their Group Profile (different from App profile button “Me”), so that they can experience the fullness of Groups and get the most out of their interaction with others.
